NEW INTELLIGENT REMOTE CONTROL

Precise control over the machine - two sensitive thumbsticks control its position and offset, including integrated mapping on the offset. A wide range of functions. Super light and easy to use with ergonomic rubber grip.

INTUITIVE TOUCHSCREEN PANEL / HMI

Our new HMI provides essential operating information and implements operators’ instructions. HMI functionality includes:

- indications of power supply and power consumption,
- machine load and hours worked,
- tool holder rpm and option to choose rpm setting with tool input,
- water supply and lights activation,
- maintenance reminders,
- password activation and shutoff, etc.
